

Harry is a communicator and a problem solver. His experience in social and technical environments has refined his ability to identify the root of a problem and work with others to design creative solutions. Harry's business analysis and communications expertise originate from his professional experience in the public sector, while his knowledge of statistics and data analytics result from his education and passion for lifelong learning. At home in both the big picture and in the details, he is an attentive listener who helps organizations create opportunities for growth.

BUSINESS ANALYSIS, PLANNING & STRATEGY

Harry has planned, tested, and launched projects that range from financial collaborations between 25 public post-secondary institutions to payroll systems affecting over 4500 employees. Harry works with stakeholders to articulate their challenges, gather requirements, identify and compare options, and build or procure solutions.

BUSINESS WRITING & COMMUNICATIONS

Harry's experience in business communications includes writing minister briefings, business cases, user training manuals, and privacy impact assessments. He specializes in arranging large volumes of information in a manner that is clear, concise, and tailored to its audience.

DATA ANALYSIS

Harry built his foundational knowledge of data analysis at the University of Victoria and continues to supplement his expertise through the Microsoft Professional Program for Data Science. Harry excels at both data manipulation and statistical analysis to identify opportunities, trends and drivers.

EDUCATION AND PROFESSIONAL CERTIFICATION

- Bachelor of Psychology from the University of Victoria
