“You will either step forward into growth or step backward into safety.”

STRENGTHS

Business Analysis

Anna brings a results-oriented and analytical way of thinking to projects. With a breadth of professional experience in research, policy, data analytics, and strategic HR she is able to draw on a suite of tools and methodologies to support evidence-based decision making and meet strategic client needs.

Business Writing & Communication

With extensive experience developing research reports, executive level presentations, training tools, strategic plans, proposals, and a variety of internal and external communications, Anna has refined her business writing and communication skills to be able to understand and meet the needs of diverse client audiences through high quality products.

Dispute Resolution

As a Master of Dispute Resolution, Anna carries with her experience and skill in designing relationship building and dispute resolution strategies within organizational development and change management contexts. Her theoretical and practical knowledge, paired with her passion for this field, enables her to address complex issues and support sustainable change.

EDUCATION
