

ABOUT SOLACE

Solace is a Media Production Assistant and Graphic Designer who narrates and creates animations for E-learning courses, as well as supporting in building a comprehensive suite of tools, templates, and methodologies for Elevate Consulting. Having completed her diploma in Graphic Media Design at the Pacific Design Academy, Solace is proficient in Adobe InDesign, Adobe Illustrator, Adobe Photoshop, Figma and Microsoft Office programs. She is also certified in Camtasia and Snagit, as well as having foundational skills in HTML, CSS, Adobe Premiere Pro, Storyboarding and UX, UI design.

EXPERIENCE

Video editing

Solace works with video editing as part of her E-learning work by taking her narrations, graphics and images and brings them together. She is proficient in Camtasia and uses this skill for several of the E-learning courses she has taken part in. This includes the Lakeland Credit Union Health and safety video, EMC's Manufacturing 101 video as well as several of the EMC courses and assembling these items to create preliminary drafts of E-learning videos.

E-Learning

Solace is a Multi-Media Assistant; a role that has extended her knowledge and expertise in E-learning. Her responsibilities include gathering media assets such as images, videos, and icons, creating headers, footers, colour schemes and graphics and assembling these items to create preliminary drafts of E-learning videos.

Voice overs and narration edits

Solace is a skilled narrator, having narrated for companies such as the Lakeland Credit Unions and Excellence in Manufacturing Consortium (EMC) courses. Solace also edits her narrations in Adobe Audition to prepare them to be inserted into video format.

Visual Design

Solace is well versed in visual design, demonstrating proficiency in Illustrator, Photoshop, and InDesign. She has experience designing documents, logos, PowerPoints and several kinds of visual graphics and diagrams including her work on BC's Geospatial Strategy and Elevate Consulting's business methodologies.

UI and UX Design

Solace has recently been engaged to work with UI and UX design. She is working with Delving, a new start-up business, to conduct product evaluation, research, design systems and accessibility.
