

# KARAN JHURANI

Junior Management Consultant

P 236.464.5039

karan@elevateconsulting.ca | www.elevateconsulting.ca

**Karan** is an accomplished analyst with notable experience working across industries like banking, real estate, and information technology. He has demonstrated a strong ability to conduct data-driven analysis, process complex data, and create novel solutions. Karan thrives in a dynamic environment, working with diverse teams, and solving intricate problems. As an objective and independent analyst, Karan's primary goal is to always maximize value creation.

Karan's primary skills can be summarized as:

## **BUSINESS ANALYSIS**

Karan has a knack for identifying operational gaps and developing them into opportunities for growth. His passion for data analysis combined with a strong understanding of the global economy allows Karan to build innovative solutions that maximize efficiency.

## **BUSINESS WRITING AND COMMUNICATION**

A firm believer in transparent and clear communication, Karan is adept in delivering information catered to the needs of his audience. He has extensive experience in creating executive level presentations, writing research reports, and briefing notes. Karan focuses on communicating large volumes of data in a concise and digestible manner.

## **STAKEHOLDER ENGAGEMENT**

Karan has successfully worked with various teams, partners, and stakeholders in a spectrum of industries. He relies on his communication skills and innate curiosity to connect with others. Through his experiences, he has cultivated a strong ability to develop and nurture trusting relationships.

## **PLANNING AND STRATEGY**

Karan has led strategic initiatives in different sectors and has experience building a business from scratch. He takes a global approach that involves identifying broad macro trends, understanding the opportunities created through them, and devising methods to leverage these. He is committed to collaboration, ensuring all stakeholders are involved in developing a sustainable strategy. This leads to joint ownership, allowing for more holistic solutions and better implementation.
